

■ N8N Automation Projects

■ LinkedIn Lead Automation

This system automates LinkedIn lead generation using a no-code workflow that scrapes comments from viral posts. It incorporates API scrapers to fetch post details and profile information, applies LLM-based qualification for lead scoring. Built entirely in an n8n framework by MagicOps AI, the system streamlines high intent lead capture, ensuring efficiency. Link: https://drive.google.com/file/d/1eg3xhPiyj_95ipMDgf4om9T-HWMysO18/view?usp=drive_link

■ LinkedIn DM System & AI Agent

This system automates LinkedIn outreach by scraping Apollo leads with an Apify actor, enriching them using AI-Powered tools. The workflow logs data in Google Sheets, triggers webhooks, and sends targeted connection requests using Phantom. The solution streamlines manual outreach into a coherent automated process. Link: <https://drive.google.com/file/d/1587u1Up2vB5nQ8AeHMvXmqzOZ3IHbynB/view>

■ Voice AI Receptionist

A voice AI receptionist built using Vapi and integrated with an n8n automation system. The system leverages Twilio for phone number management and real-time call handling, while also automating incoming calls. The blueprint provides JSON-based parameter formatting and tool coordination. Link: <https://drive.google.com/file/d/1-znRsMWmFUFbr1IFUjLGr42azzMlxPEz/view>

■ Scraping Automation

The simplest way to automate scraping anything with no code (Apify + n8n). Link: <https://drive.google.com/file/d/14es-gxH7oZykRPnrgbdEeIK-ECCcY5Xa/view>

■ N8N Automation Projects

■ AI Agent with Zep Memory

Complete AI agent workflow using n8n integrated with Zep for long-term memory. It fetches and filters data via HTTP and code nodes, combines short-term PostgreSQL memory with Zep's knowledge graph, and interacts over Telegram. Includes optimized API token usage.

■ Real-Time Insights System

Combines Bolt.new, Supabase, and n8n with Grok's Live Search API, engineered prompts, and CORS handling for real-time data dashboards.

Live Projects Portfolio

Schology - A Modern Education Ecosystem

Schology is transforming education through a unified digital platform that significantly improves student retention and engagement. It seamlessly connects students, parents, and educators into one integrated ecosystem, enabling access to academic progress, communication tools, and learning materials in real time.

LoserBase - Smart Lost & Found System

LoserBase is a production-ready platform designed to help users report lost items and submit found items. If a match is found in the database, both the person who lost the item and the one who found it are instantly notified. The platform also includes a built-in chat feature, allowing both users to coordinate the recovery process easily.
