

Project Features

A list of all features included in this platform. This document is designed for review and covers every major and minor functionality.

User Management

- User registration
- User login
- User logout
- Token refresh
- User profile
- Update profile
- Change password
- List users (admin)
- User details (admin)
- Update user (admin)
- Delete user (admin)
- Verify user (admin)
- User search
- User statistics
- Captcha verification system (All Users)

Marketplace

- Product listing
- Product details
- Create product (vendor)
- Update product (vendor)
- Delete product (vendor)
- Category listing
- Review listing
- Create review
- Advanced search & filtering
- Product sorting
- Product pagination

Order System

- Order creation
- Order update
- Order status update
- Order payment address generation
- Order details
- Order management (vendor/buyer/admin)

- Order history

Payment System

- Payment processing
- Escrow payments
- Direct payments
- Payment address generation
- Payment status check
- Multi-crypto support (BTC, XMR)
- BTCPay integration
- Monero integration
- Payment analytics dashboard
- Automated refund system
- Payment method selection UI
- Payment monitoring service
- Payment notifications

Commission System

- Platform fee rate
- Escrow fee rate
- Minimum commission rate
- Maximum commission rate
- Commission history
- Commission settings management

Vendor System

- Vendor application
- Vendor dashboard
- Vendor statistics
- Vendor wishlist stats
- Vendor payout management
- Vendor profile
- Vendor verification

Buyer System

- Buyer dashboard
- Buyer order management
- Buyer dispute creation
- Buyer wishlist
- Buyer reviews

Dispute System

- Dispute creation
- Dispute timeline
- Dispute notifications
- Dispute statistics
- Dispute resolution
- Dispute priority (urgent, normal)
- Dispute win/loss tracking
- Dispute management (admin)

Notification System

- Order notifications
- Dispute notifications
- Wishlist notifications
- Real-time notifications (WebSocket)

Wishlist System

- Add to wishlist
- Remove from wishlist
- Wishlist count
- Wishlist notifications
- Vendor wishlist statistics
- Wishlist management

Admin Panel

- Admin dashboard
- Admin commission management
- Admin payment management
- Admin user management
- Admin dispute management
- Admin product management
- Admin reports

Product Features

- Product headline
- Product website
- Product account type
- Product access type
- Product account balance
- Product description
- Product price
- Product additional info

- Product delivery time
- Product credentials display
- Product main image
- Product gallery images
- Product status
- Product featured flag
- Product views count
- Product favorites count
- Product rating
- Product review count

Infrastructure & Deployment

- Docker configuration
- Docker Compose setup
- BTCPay Server setup
- Monero node setup
- PostgreSQL configuration
- Redis setup
- Celery integration
- Static file management
- Media file management
- Backup system
- Healthchecks

Testing & Reports

- Test scripts
- Commission rate tests
- Progress reports
- Deployment guides
- Client testing guide

Configuration & Utilities

- API configuration
 - Tailwind CSS setup
 - Vite config
 - PostCSS config
 - TypeScript config
 - Drizzle config
 - Environment variables
-
